PRICE THREE CENTS

TRIED TO RETAIN MISS KATE BRIEL

Effort Made to Keep Nurse, Dr. Singmaster Tells Association.

ANNUAL REPORT GIVEN

Elect Officers. Report \$681.51 in Treasury. Resolution Regretting The Departure of Pastors.

That the officers of the Gettysburg Civic Nursing Association made every effort to retain the services of Miss Kate Briel, Civic Nurse, resigned, was the statement of Dr. J. A. Singmaster president of the Civic Nursing Association in his report to the members of the organization at the annual meeting of the Association in the Christ Lutheran church Friday evening. When Miss Briel tendered her resignation to the officers, a committee was appointed to endeavor to dissuade her from leaving, he said. Miss Briel had asked for an increase in salary which unfortunately was in excess to the association's ability to pay her, and a house to house canvass in the town netted only about \$500 so we had to let her go, the speaker added.

Dr. Singmaster pointed out that during Miss Briel's eight years' service here she had made 10,727 visits to 1763 families. During the past year she made 1282 calls to 341 families. For those calls, she received but \$362.63 in fees, less than thirty cents per visit.

The report of the board of directors as read by Dr. Singmaster follows:

I have the honor as president of your association to submit the Ninth Annual Report of the Board of Directors for the year ending October 1, 1920.

The work has been carried on for the year without any unusual interruption. Our nurse, Miss Kate Briel, has continued her faithful and efficient ministry, making a total of 1282 visits to 341 families. She received \$362.63 in fees, an average of about 30 cents for each visit.

Eight Years of Service

During the eight years of her service Miss Briel has made 10,727 visits to 1763 families. This splendid record not only reflects great credit upon the nurse, but justifies abundantly the existence of the association. Who can estimate the comfort of over 10,000 visits to persons in distress? Many of our citizens arise and call Miss Briel blessed for her kindness and skill in time of need.

The report of the treasurer shows that the moderate expenses of the association have been fully met by the income of about \$1100 from the usual sources. The expenditures were \$831.75. The report also shows a balance and reserve fund of about \$1,000, the result of small balances for these eight years.

Regret Departure

We deeply regret that Miss Briel has felt constrained to resign the position which she has held so long and has so satisfactorily filled. She had the conviction that a change was desirable for various reasons and that she would be able to command a higher salary elsewhere. The president as well as a committee endeavored to dissuade her from going, but she thought it best to adhere to her purpose. The salary which she asked in order to remain permanently was unfortunately considerably in excess of our income, and the Board was reluctant to do so.

TO MAKE FINAL PLANS TUESDAY

Farmers' Day Committees Report Progress With Arrangements.

MAKE TRAFFIC RULES

Chamber of Commerce Members Satisfied With Reduction of Water Company Rates. Fight Worth While.

Reports of the Farmers' Day committees and a discussion of details concerning the staging of the event on Thursday, October 21, occupied the attention of the workers, interested in the movement, at a meeting in the office of George C. Fissel Friday evening. Because of the absence of several directors, the regular monthly meeting of the Chamber of Commerce was not held and arrangements for Farmers' Day which is less than three weeks off was the main order of business.

According to arrangements being made by the entertainment committee at least five bands will be here for the day. They will take part in the street parade which will be held in the early afternoon, play for the dancing between 7 and 9 o'clock in the evening and give concerts. While no definite announcement of the program can be made for the day, plans being worked out by the committee consist of a variety of entertainments never before presented at similar occasions here.

It was decided to hold an open meeting Tuesday night in Mr. Fissel's office for the purpose of completing all arrangements for the day. By that time, it is expected the list of premiums will be completed, all events on the program will be known and the exact time fixed for their occurrence. A number of valuable prizes will be offered for exhibits in the street parade, this committee announced.

Special traffic regulations for Farmers' Day were discussed which resulted in a decision to prohibit the parking of cars or other vehicles in the street.

RED CROSS WILL PLAN ROLL CALL

Executive Meeting Monday to Seek Members November 11 to 25.

PEACETIME WORK STARTED

Accomplishments for Year Numerous. Post-War Work Important. Baby Clinic And Other Health Work.

With the meeting of the executive committee of the Adams County Red Cross at the Court House next Monday at 4 o'clock plans will be formulated for conducting the annual Roll Call of the organization from November 11 to November 25. The drive for renewals of membership and new members will end on Thanksgiving Day.

At this meeting the committee will decide on the organization for the county by which groups in each of the branch chapters will be appointed to carry on the work. An effort will be made to maintain the membership which enrolled last year when the peacetime work of the Red Cross was inaugurated for this county. This work which got under way the early part of this year is by this time fairly started and will round out into greater service as it develops in another year.

Peacetime Work

Already the Adams county chapter can point to series of accomplishments under the peacetime program. The greatest service has been rendered the ex-service man. Hundreds of allotment, insurance, back pay and other entanglements which came to light at the close of the war among the ex-service men of this district have been straightened out. Even now though the great majority of men of the county received their discharges more than a year ago questions about discharges and insurance are being brought to Miss Margaret McMillan daily. A number of men have also received compensation for disability that would not have received it had they not been searched out and an interest taken in their cases.

Has Many Interests

Other work, such as the establishment of the "well baby" clinic, publishing of the County Health Hand Book which is now well under way, follow-up work to the medical examinations in the schools, co-operation in the preliminary work of the Annie M. Warner Hospital and many private enterprises make up the record of the year for the Red Cross in the county. Arrangements will also be made at the meeting Monday to encourage members to attend the group conference of Red Cross workers in Lancaster on October 14.

Large colored posters similar to those used by the Red Cross during the war and many small circulars have been received at the local office and will be distributed over the county.

DETECTIVES SEEK FOR ABE ATTELL

Boxer Will Be Forced to Tell of Baseball Gambling.

SCENE SHIFTS TO EAST

New York District Attorney Will Prosecute Fixers. Brooklyn Players Exonerated of Connection in Plot.

(By Associated Press)

New York, Oct. 2.—Abe Attell, former featherweight champion, whose name has been connected with rumors that the 1919 World's Series was "fixed" by a syndicate of gamblers will be forcibly brought to District Attorney Swann's office in New York for questioning if he can be found by detectives who are searching for him.

District Attorney Swann in announcing this today said he intended to prosecute any persons here who profited through any crooked gambling scheme connected with last year's World's Series.

"There is a special law under which he can proceed," he declared, "and in addition he thought the crime would come under the grand larceny statute. Sinister gambling after the game had been 'fixed' would constitute grand larceny by tricks and device," he said. District Attorney Lewis, of Kings county, today issued a statement in which he declared the investigation by his office had failed to disclose any plot to "fix" the 1920 World's Series.

"My investigations have not disclosed a single suspicion that there has been any attempt to 'fix' the coming series," said Mr. Lewis in his statement exonerating all members of the Brooklyn Nationals competitor in the series.

New York, Oct. 2.—Trading in today's short session of the stock market favored the long accounts, bears covering in many industrial and speculative issues recently subjected to pressure.

A better undertone was shown by steels, equipments, oils, leathers and chemicals, in which rally ranged from 1 to 3 points. The closing was strong. Sales approximated 400,000 shares. Foreign exchange made no response to additional heavy gold import but the bond market was firm to strong especially in the railroad division.

IRISH CHARGE FEDERAL PLOT

Griffith Says Reprisals Are Carried Out By Government.

REVELATIONS CAUSE STIR

Says There is Secret Order Planning to Assassinate Sinn Fein Leaders in Ireland.

Dublin, October 2.—Sensational charges that the government itself was responsible for reprisals in Ireland and that a certain number of Sinn Fein leaders were marked for assassination were made Friday by Arthur Griffith, founder of the Sinn Fein organization, who said he was first on the list of intended victims.

Mr. Griffith, to support his statements, exhibited to the group of American, English and Continental newspaper men to whom he made a long statement preferring the charges, alleged official documents secured by Sinn Fein agents. Among these papers was an official permit, alleged to have been signed by General Sir Nevil Macready, military commander of Ireland. It was made out to a man named Hardy, who has had a long career of forgery and imprisonment, and who is alleged to have been released prematurely from prison on a ticket of leave signed by Ian MacPherson, as chief secretary for Ireland, permitting him to move about freely in Ireland unhampered by police surveillance, in the role, as Mr. Griffith asserted, of government spy.

Revelations Stir Dublin

Although accustomed to almost daily sensations Dublin was greatly excited over the revelations of Mr. Griffith, which were published in one of the afternoon newspapers.

It is pointed out that if the documents are authentic, Mr. Griffith is liable to arrest under the Defense of the Realm Act and under the new Restoration of Order Act, for having them in his possession. This is particularly true in the case of one, which is declared to be a military order relating to a movement of troops not yet carried out. Similarly it is said that every newspaper correspondent transmitting such an order, or the substance of it, and editors of British newspapers reproducing it likewise are subject to arrest.

The secret order which Griffith said was issued from general headquarters, two days after the recent Balbriggan affair, said:

"There are indications that the measures recently taken by the government for the suppression of disorder in Ireland are beginning to bear fruit and have the desired effect on, at any rate, the more moderate section of the Sinn Fein, who are beginning to use their influence to prevent the campaign of outrage. The Irish government hope, if the pressure is maintained and if certain measures they have in view are successful, a great improvement in the situation may take place within two months."

Says He is On List

The reprisals, Mr. Griffith charged, had no connection with anything that might happen in the country, but were already organized by the government in Ireland, and men brought to sack towns under the orders of high officials. He recalled the case of Hardy, who, he declared, was prematurely released to act as provocateur in the alleged plan to create excuses for reprisals.

TO PROBE OTHER LEAGUE GAMES

Grand Jury Turns Attention to Nationals. Veeck Tells Story.

Chicago, Oct. 2.—The Cook county grand jury investigating the baseball scandal Friday received further information concerning the throwing of games in last year's world's series, but devoted most of the day's sessions to an investigation of alleged crooked work in the National League.

William Veeck, president of the Chicago National League Club, told the jury that his private investigation charges the Philadelphia-Chicago National League game of August 31 had been fixed for Philadelphia to win, led him to believe that the club itself had been made the "sucker" in the case, and other witnesses gave additional details of activities which led to the discharge from baseball of Lee Magee and Hal Chase.

Veeck said evidence he had found in Detroit convinced him there was no crooked work in the August 31 game. He said he believed the gamblers themselves had sent him the telegram saying it was "fixed" and that they had done this to make the club switch from Hendrix, a comparatively weak pitcher, scheduled to hurl, to Alexander, one of the best in the league. This gave Chicago its strongest possible line-up, which was what the gamblers wanted, he said.

Garry Hermann, president of the Cincinnati Club, and formerly chairman of the National Commission, presented affidavits from Christy Mathewson, former New York pitcher and Cincinnati manager; "Greasy" Neale, Cincinnati outfielder; Jimmy King, Cincinnati pitcher, and Manager McGraw, of the New York Giants.

Before the announcement of the programs and hostesses by Mrs. Stouffer, Mrs. Rudolph Rosenstengel sang several Scotch ballads. Short talks were given by Miss Margaret Barr, president of the society, Miss McConaghey, Miss A. Barr, Mrs. Lott and Miss Ellen Kerr. The president voiced the sentiments of the society in expressing regret at losing Mrs. F. E. Taylor as a member of the society who will soon leave for Philadelphia. Mrs. Taylor gave a brief response.

BLANKETS AND OVERCOATS

Temperature Sags to Lowest of the Year.

There was rumaging among the moth balls Friday night for blankets and many an overcoat was hastily brought from the depths of the closet when the temperature sagged way down near the freezing point. There was no frost, however, market men said.

These frigid breezes which first began to arrive Thursday are in the wake of a tropical storm from the Gulf of Mexico and weather forecasters predict they will continue for several days.

Dispatches from the west have announced low temperatures and killing frosts. The storm, the weather bureau has announced, has moved north to the St. Lawrence Valley.

GUNMEN PRESENT THEIR ALIBIS

Case of "Big Bill" Mitchell Ends In Frederick Court.

DENIES MURDER CHARGE

Second Sandy Springs Murder Suspect Admits His Record is Bad. Was Never in Maryland.

Frederick, Md., October 2.—Decision in the case of John W. Mitchell, alias "Big Bill," of Philadelphia, charged with the murder of Francis M. Halliwell, a director of the Sandy Springs Bank, and indicted with Clarence F. Adams, Camden, N. J., who has been tried, and Joseph Thomas Penderghast, of Philadelphia, brought to a close in the Frederick County Circuit Court at 6 o'clock last night, has been reserved.

Penderghast will go on trial on Monday morning at 10 o'clock. Witnesses in the case were excused until this hour.

Five full days were taken in the trials of two of the trio, alleged members of the band of five automobile bandits, who committed the Sandy Springs crime on April 26.

Presented An Alibi

As Adams presented an alibi for his defense, so did Mitchell. Adams' alibi was the purchase of a piece of zinc in Philadelphia April 26, the date of the crime. Mitchell's attorney submitted in court the leaf from the register of Hotel Narragansett, Providence, R. I., of the date of April 26, on which appeared the names of "J. W. Conley" and "F. B. Martin," Boston, Mass.

Dr. Thomas H. McCombs, Philadelphia, a handwriting expert, was produced by Attorney C. S. Patterson, Philadelphia, to prove that the signature on the hotel register and that written by Mitchell in court during the afternoon were identical. Dr. McCombs testified that they were the same.

There was one discrepancy discovered by the court when the register sheets were produced. On the side of the page carrying Conley's name, admitted to be one of the many aliases of Mitchell, the date of "6-26-20" showed written in ink. Vernon Kelleher, bell hop man of the hotel, who was authorized by the manager of the hostelry to bring the sheets to Frederick for use at the trial, was unable to definitely clear up the discrepancy.

Affraid of Record

When questioned why he had used an alias in registering at Hotel Narragansett, Mitchell said that he did so because he wanted to conceal himself from the police. "I can't travel like a gentleman because of my record," said Mitchell. Records produced in Frederick show that on May 20, 1919, in Philadelphia, Mitchell shot and wounded a policeman and three citizens after he had been placed under arrest for disorderly conduct. He gave \$1,500 bond, but did not appear for trial.

Denies The Murder

When asked by Attorney Patterson if he had murdered Francis M. Halliwell, the Sandy Springs Bank director, Mitchell, in husky voice, emphatically said "I did not." He denied that he was at Sandy Springs, as nine witnesses testified. He said he was never in Maryland.

When the prosecution closed its case, Attorney Patterson asked permission to consult with his client. Court granted the request, but said that two officers should accompany the prisoner and keep him within their sight.

One hundred and sixty men, employees of the Waynesboro Knitting company, are out of work as the result of closing the mill for two weeks. The shutdown was made necessary because of inability to secure new business and the decline in the price of raw cotton.

BOOZE RAIDS AT RURAL HOTELS

Three Truck Loads Confiscated in Lancaster By Dry Officers.

Lancaster, Pa., Oct. 2.—The daily routine of four small towns in Lancaster county was violently disturbed Friday morning when a corps of Federal prohibition enforcement officers from Philadelphia under the leadership of Rev. R. E. Johnson swooped down upon the principal hotels of those places and confiscated three truck loads of booze, besides a large amount which was destroyed on the premises. The liquor brought here by truck was stored last night in the cellar of the Federal building under guard. It was impossible to estimate the monetary value of the liquor.

The hotels raided were those of William Hart at Brownstown; Charles Kautz, at Blue Ball; Abram Kautz at New Holland, and Henry Harry at Talmage. According to information given on the search warrants which were returned after the raid to United States Commissioner Howard J. Lowell, a still and five barrels of mash were confiscated at the hotel in New Holland. Piles of cased goods and whisky were also found. Much of the stuff, the officers say, was found hidden beneath bed clothing in the upper floors of the hotels.

The officers arrived here early Friday morning and had completed their work early in the afternoon. Arrests of the men whose hotels were raided have been promised for next week.

HARDING'S LEAD GROWS

Republican Forging Ahead Rapidly in Rexall Straw Vote.

The lead of Senator Harding, Republican nominee for president, over Governor Cox, Democratic candidate, continued to increase in the Rexall straw vote recently counted here. Harding now has polled a total of 277 votes against 147 for Cox. This gives the Republican a majority of 130 votes, or an increase of 25 since last Saturday's totals were made public.

In the last week's voting, women again showed their strong tendency to lean toward Cox by giving the Democrat a majority of three votes over his rival.

Senator Harding polled 36 masculine and 14 feminine votes; Governor Cox, 8 masculine and 17 feminine.

EXPLOSION KILLS ONE

Bursting Oxygen Tank Wrecks Haver in Baltimore.

(By Associated Press)

Baltimore, Oct. 2.—One child was killed and five others injured and many windows and portions of two buildings demolished when an oxygen tank in the Monumental Iron and Metal company on South Eden street exploded today.

A huge piece of metal tank was hurled across the street and crashed through the doors of the Aitzchaim Synagogue. The piece of steel struck Sara Kaplan on the head causing her death in a few minutes. Those injured were struck by flying pieces of metal.

FIRE IN GALVESTON

(By Associated Press)

Galveston, Tex., Oct. 2.—Fire broke out on Pier 41 here today and a general alarm followed almost immediately. Two hundred and fifty National Guardsmen were hurried to the scene. Four steamships were endangered by the flames.

It was believed all the endangered steamers would be saved. Three tugs were playing water on the piers soon after fire started in an endeavor to prevent the spread of the flames.

The pier is of two stories and the upper compartment is filled with general merchandise.

KEYES LISTED FOR TRIAL

Negro Murdered Wife Thirty Four Years Ago. Apprehended Recently.

Joe Keyes, aged negro, who was arrested several months ago for the murder of his wife in 1886 at Brownsville, Franklin county, will go on trial in the county court at the next session. His crime thirty four years ago attracted considerable attention through this section. Physicians doubt if he will be able to stand the physical and mental exertion of a court trial. The negro's health is failing fast. While a fugitive from justice Keyes lived outdoors and his imprisonment has undermined his health.

"Doctor," said he, "I'm a victim of insomnia. I can't sleep if there's the least noise, such as a cat on the back fence, for instance." "This powder will be effective," replied the physician, after compounding a prescription. "But when do I take it, doctor?" "You don't take it. You give it to the cat in some milk."

It is just when a man gets down the lowest, and things look the darkest around him, that light breaks in and hope begins to live again.—R. B. I.

TRIED TO RETAIN MISS KATE BRIEL

(Continued from First Page)

tantly compelled to accept her resignation, which went into effect on September 26.

Needed More Money

The income of the association should be larger and the compensation of the nurse higher. But a house to house canvass yielded only about \$550. It was only through special appeals that this sum was doubled and the maintenance of the nurse made possible.

Moreover, we are sorry to report that only about one-third of the families visited have paid even the small fees expected. While our work is largely and designedly charitable we cannot but regret that some families in prosperous circumstances have failed to show any appreciation of the visits of the nurse.

We are glad to report to the association and the community the election by the board of directors of a successor of Miss Briel in the person of Miss Mary Grove, a well-known resident of Gettysburg who has substituted for Miss Briel upon various occasions. She is a graduate nurse with large experience who will take up and carry on the work with the same spirit and energy which were shown by her loved predecessor. The salary including residence has been fixed at \$75 per month.

The relation of the Nursing Association and the Hospital will be, of course, friendly and co-operative. There is no present intention of giving up our work. What the future may bring we cannot say; but we plead again for the earnest support of a cause which has proved beneficent in the past.

Elect Officers

The report of the treasurer showed a balance of \$681.51 in the treasury.

The following officers were elected for the ensuing year: Dr. J. A. Singmaster, president; Mrs. J. L. Butt, vice-president; I. L. Taylor, treasurer, and Mrs. Donald P. McPherson, secretary. Members of the board of directors are: Miss Annie Horner, Miss Annie Reck, Mrs. W. A. McClean, Mrs. J. L. Butt, Mrs. W. A. Martin, Mrs. Milton Remmel, Mrs. H. T. Weaver, Hon. E. P. Miller, Professor L. A. Parsons, Miss Mary Ramer, Miss Anna McSherry and Mrs. W. A. Miller.

A resolution regretting the departure of Rev. F. E. Taylor and Rev. W. F. Biele, both prominent workers of the association, was adopted before adjournment.

PRICE DECLINE AT CURB MARKET

Potatoes Down to \$1 a Bushel.
Twenty Six Marketmen
on Hand.

The general nation-wide decline in food prices began to show this morning at the curb market when potatoes, apples, peaches, sweet potatoes, and tomatoes were still lower than the low price records set last week. Although only twenty six market men were in attendance, six less than last Saturday, the variety and quality of the commodities offered to the public was better. The early spring products, lettuce, radishes, green onions and the like were not so prominent, but that feature was offset by the excellent supply of fall and winter apples, watermelons, peaches, cabbage, peppers, cider and pumpkins.

Irish potatoes sold as low as \$1 per bushel, ten cents less than the previous low mark. Sweet potatoes also took a big drop. A short time ago it was impossible to buy sweet potatoes for less than \$3 a bushel, but any quantity and quality desired could be purchased this morning for \$2.

Last Night's Dreams —What They Mean

DID YOU DREAM OF STATUES?

THE modern scientific investigators of dream phenomena all deny, of course, the prophetic quality of dreams. Except in one regard. They say that perhaps—and they emphasize the "perhaps"—in the dream state some incipient disease or disorder of the system may manifest itself in dream symbolism, which said incipient disease or functional disorder would not be manifest to the dreamer in his waking state because as yet too trifling a nature to exert an impression upon the mind while occupied by the world of relatives. That there should be found in this way people who still cling to the idea of a supernatural origin of dreams is ascribed by the scientists to the fact that their attempted psychological explanations have, so far, been too inadequate to overcome the accumulated superstitions of the centuries. And when we consider the vast number of years that man has inhabited the earth and that civilization as we know it is but a thing of yesterday—as late as 1746 a cow was criminally prosecuted in a French court and a dog was executed for witchcraft in Salem in 1602—when we consider this, it is not surprising that there linger in us psychic remnants of the days when our naked ancestors shuddered at the juggery of the Druid priests in the circle of Stonehenge.

To the ancients dreams were serious matters, though as early as the time of Julius Caesar the wise had begun to scoff at them, as will be remembered in connection with the celebrated dream of Caesar's wife Calpurnia. On the night before Caesar's assassination she dreamed that she saw her husband's statue running with blood from many wounds and the Romans coming to bathe their hands in the purple stream. She begged Caesar not to go to the senate that day, but he refused to stay away lest the senators should laugh at him for being afraid "because his wife had had a dream." Calpurnia's dream was probably born of her anxiety for the safety of her husband, but the mystics agree with her in regarding it an unfavorable omen to dream of a statue. They say, however, that if you dream of several statues, you will shortly receive a valuable present from an esteemed friend—a case, apparently, of safety in numbers.

SEASONABLE DISHES.

Young beets canned for a winter vegetable are most delicious. Choose small, even sized beets, wash and leave the stem of each an inch long to save them from bleeding. Cook until tender in boiling water. Drop into cold water and slip off the skins. Pack in jars, using a teaspoonful of salt and two teaspoonfuls of sugar to each quart, place the rubbers and fill to overflowing with boiling water. Put on the top and screw just enough to lift the jar. Place on a rack, cover with hot water and boil for one hour. Remove, seal and set away for winter use.

Prune Parfait.

Beat the yolks of three eggs, add one-third of a cupful of sugar, and a pinch of salt, add one cupful of milk and cook until smooth and thick, add a tablespoonful of gelatin, softened in prune liquor, using one-fourth of a cupful, three-fourths of a cupful of prunes cut in pieces, the juice of half a lemon. Let stand in cold water, then add ice and stir until it begins to thicken, then fold in one-half cupful of whipped cream beaten stiff. When stiff enough to hold its shape, turn into a mold and set away to become firm.

Scrambled Eggs With Cheese.

Melt one-half pound of rich cheese in one cupful of rich cream, add a dash of cayenne, mix well, then break into the mixture six fresh eggs and cover until the whites are set, then stir vigorously until the yolks are cooked, but not hard. Pour out on one strip of buttered toast or hot buttered crackers. Add salt just before serving to avoid the curdling of the cream.

Corn With Peppers.

Remove the seeds from three green peppers; boil them in salted water 20 minutes, then drain and chop fine. Boil six ears of corn in the water in which the peppers were cooked. When tender, cut the corn from the cob. Put two tablespoonfuls of butter in a saucepan and when hot add the corn and peppers with salt to taste. Stir frequently and serve at once.

Banana With Bacon.

Fry thin sliced bacon until crisp, drain on paper and place on a hot platter. In the bacon fat cook peeled and sliced bananas; dust with cayenne and serve immediately.

PLEA TO HUNTERS TO OBEY THE LAWS

Sportsman Urges That Men Who Hunt Be Good Sports.

(Communicated)

The Game Commission has spent a considerable sum of money during the past few years for the importation and propagation of game of all kinds, and it is the intention of the Commission to enforce rigidly the law so that every lover of hunting will have an equal chance when the open season comes.

There seems to be a mistaken idea about dogs chasing small game from September 1 to March 1 as provided by law.

Some persons are inclined to think their dog or dogs may be turned loose and run game at will. This is a mistake. The law says, "Dogs may be trained on all game of the State except elk, deer and wild turkeys from September 1 to March 1, Sundays excluded, when accompanied by or under control of their master so long as no injury is inflicted upon the animals or birds."

It must therefore be borne in mind that even during the training season dogs may not legally be turned loose to chase game at will, but must be accompanied by their owner or handler and under reasonable control at all times. Failure to observe this will subject dog owners or handlers to the same penalties that apply during the summer months, and we are confident that when dog owners understand this matter fully, there will be no necessity for legal action. Will you help?

Again you hear men say, "I'm not going to take out a hunter's license. I'm only going to hunt a little around home." Please don't do that. It only places you in a position to pay a fine. You are bound to be angry at the officer who apprehends you if hunting without license, but that is their duty and they are instructed to enforce. Take out a license and carry it with you. Protect yourself and the game!

HAMPTON PROGRESSING

Citizens to Build Park and Beautify Square.

Hampton is preparing to beautify the square in the center of the village by popular subscription. Some ground has already been hauled to the plot and a circle with grass, walks and trees will be laid out there. The citizens plan on raising a flag pole later on and in due course a band stand and benches will be added to lend attractiveness. The East Berlin band will furnish music.

It is said one Hamptonian started the subscription list with \$100. According to report, the Square will be lighted, and there is talk of concreting the roadway around the circle.

SPORTING COLUMN PLAN TO CLEAN UP ALL BASEBALL

Moguls Would Take Sport From Magnates And Players.

Chicago, October 2.—Representatives of four major league baseball clubs last night started a movement designed to "clean up baseball forever" by taking control of the game out of the hands of men financially interested and placing it under a "civilian tribunal" to be composed of men "of unquestioned public standing," abolishing the national commission.

A letter was sent to every major league club and dozens of others interested asking their approval of the plan which was characterized as a means of "giving professional baseball to the American people—where it belongs—and taking ownership of it away from club owners and players."

The letter was signed by William Veeck, president of the Chicago National League Club; Charles A. Comiskey, president of the Chicago American League Club; Barney Dreyfuss, president of the Pittsburgh Club, and John McGraw, vice president and general manager of the New York National League Club.

CLEVELAND NEARS FLAG

By Winning One More Game Indians Can Cop.

Cleveland can clinch the American League pennant by winning one of the two remaining games with the Detroit Tigers to be played today or tomorrow. Cleveland can lose both of the Detroit games if Chicago loses one of its remaining two with St. Louis. The best that Chicago could do now would be to tie the league leaders, and this would necessitate winning twice from the Browns while the Indians lose their games to Detroit.

The gap between the two rivals widened Friday to two full games when the Detroit-Cleveland double header resulted in an even division of the

spoils while Chicago was losing to St. Louis.

Local fans do not think Comiskey's crew has a chance to head the flying Indians. Some fans are so confident of the prowess of the Cleveland team as to say that if Cicotte and his pals had not been banished, Cleveland would have easily copped the flag. Anyway sporting enthusiasts are almost universally of the opinion that the pennant is safely tucked away in the Cleveland locker.

Three more French war orphans have been taken under the Legion's wing by contributions of \$75 each from two posts and an individual "member" of another, as listed above, who asked that his name be withheld. The anonymous donor, in his letter transmitting a check which will care for one of the fatherless waifs a year under the Legion plan, says he "would be glad to have the privilege of being an adopted father another year if necessary."

The New Jersey post forwarded its contribution to the Legion's national treasurer, Robert H. Tyndall, through Thomas Golding, state adjutant, and expresses no preference as to the sex or age of its prospective protegee.

R. L. Jones, adjutant of the Milwaukee post, writes:

"At the last meeting of the post, the membership unanimously decided to adopt a little French orphan and would prefer a little girl. I am instructed to request of you, if possible, the little girl's picture and also her name and address in order that we may keep in touch with her from time to time."

"Luckily, there is a member of our post who is able to read and write French and therefore will have no trouble in corresponding with the little girl."

Advices from France are that 3,000 children, the keenest sufferers in the after-war distresses of the country, are threatened with actual want. Many were once the wards of A. E. F. outfits.

Posts of the Legion, or individual members or friends, may adopt a French war orphan for at least one year, contributing seventy-five dollars for the first year's support. The moneys assigned will be either orphans or the children of permanently disabled French veterans.

All of the money contributed will go to the child. The Red Cross bears all expenses of administration.

GIVES ACRE TO KANSAS POST

President Elgin Chapter, Red Cross, Makes Valuable Donation in Heart of Oil Fields.

An acre of ground at Elgin, Kan., donated by Mrs. Margaret Gunn, president of the Elgin chapter of the American Red Cross, to the Luther S. Hankinson post of the Legion, may prove an unusual asset and make the post the most independent, financially, of any in the Legion. The land is in the heart of the Kansas oil fields. Wells have shot up all around it, and by sinking a shaft near the clubhouse it may be that the lucky Legionnaires will find themselves in possession of something mighty similar to a gold mine.

The post is the first one in Kansas to actually finance, build and equip its own clubhouse. It has only 135

MRS. MARGARET GUNN

members, but State Adjutant E. Samuel corroborates its place on the Roll of Honor, since its members have endeavored to two ex-service persons in the community.

The clubhouse was built "fashion" at a cost of only \$1,000, contains a kitchen, dining hall, reading and writing room, and a dance gymnasium and a dance.

The post has a thriving women's auxiliary, many members of which donated Campfire girls and part recent Decoration day to the community.

DO NOT THROW AWAY PARTLY STALE BREAD

Different Ways of Making It Quite Appetizing.

Good Plan to Cut Off What Is Needed at Meal and Place Slices in Hot Oven—Croutons Are Made of Odds and Ends.

Toasting is the most common method for making stale or partly stale bread attractive, but it is by no means the only one. If partly stale bread is put into a very hot oven for a few minutes it grows softer, probably because the heat tends to drive the water from the crust back into the crumb, food specialists of the United States department of agriculture say. Such warmed-over bread is not as soft and springy as fresh, but most persons find it very appetizing. A good plan, therefore, when bread has lost its freshness, is to cut off what will be needed at a meal and place the slices in a hot oven for a few minutes just before serving. In this way bread can be used on the table which would ordinarily be considered too stale.

"Twice-baked bread," which is cut bread placed in the warming-oven or in a pan on the back of the stove and allowed to dry out slowly until it is slightly brown and crisp throughout, offers still another way of making stale bread attractive. If desired, this twice-baked bread may be crushed with a rolling-pin and used like the ready-to-eat breakfast cereals. In some localities this dish has long been known under the name of rusks.

The little fried cubes of bread called croutons, which are served with soup, may be made of odds and ends of bread. To save time, bread simply broken into small pieces may be fried either in deep fat or in a pan (sauteed) and used for the same purpose. Sometimes bread crumbs fried in a pan are used as a seasoning or sauce for meat. French cooks frequently put pieces of stale bread in soups just long enough before serving for them to soften; the well-known one, "crust in the pot," (croûte au pot), is simply a thin soup with bread in it.

There are many ways of using stale bread in cooking. Almost every good cookbook gives directions for preparing soft and dry crumbs for use in scalloped dishes, bread puddings, etc. The soft parts of bread may be used in place of flour or cornstarch for thickening soups, sauces, gravies, stewed tomatoes (either fresh or canned), etc. Bakers often use stale bread and dried, finely ground cake in place of part of the flour in making fancy breads, cakes and cookies. The housekeeper can often avoid waste by using them in this way in griddlecakes, cakes, cookies, etc.

MOPS FOR POLISHED FLOORS

One May Be Made of Old Stockings or Any Discarded Woolen or Flannel Material.

For oiled or polished floors an oiled floor mop is almost a necessity. Several makes can be found on the market, or one may be made of old stockings or any discarded woolen or flannel material. In a Farmers' Bulletin on "Farm Home Conveniences," obtainable free from the United States department of agriculture, the following directions for making such a mop are given:

The material is cut into 1-inch wide strips, which are sewed across the middle to a foundation of heavy cloth. This is fastened to an old broom handle or used in a clamp mop handle.

The mop, when finished, is dipped into a solution made of one-half cupful of melted paraffin and one cupful of kerosene, and then allowed to dry. To keep it moist it is rolled tightly and kept in a paper bag away from stove or lamps.

"The Bottom of the World"

Sir Ernest Shackleton's thrilling attempt to cross the South Pole.

Facing death in the perilous ice floes on the Antarctic, the famous Shackleton exploring expedition has returned to you a complete pictorial record of the hardships and dangers encountered during the historic journey.

In a battle of human endurance staged by the greatest of all dramatists—FATE—it is proved again that truth is stranger than fiction.

For two years the brave little exploring party battled the "white horror" of the polar regions to gather knowledge and information of inestimable value to the scientific world.

More thrilling than the most modern of serials, containing more interest and suspense than the greatest of dramatic productions and more beautiful than the most picturesque of scenic, "The Bottom of the World," has a greater appeal than anything you have ever seen before.
